Aras Innovator Version Support

Minerva Products 11.6 is supported on Aras Innovator Version 12 Service Pack 2.

It is possible that Minerva Products 11.6 will work without issues on other service packs of Aras Innovator than version 2 but they are not supported in this 11.6 release.

All other compatibilities (Browsers, Operating Systems, etc.) are as per Aras Innovator Version 12 Service Pack 2.

Minerva Data Viewer 11.6 for Aras 12 SP2

New Features

This release focus on getting the features from our existing Minerva Data Viewer 11.5 to work on Aras 12 SP2.

Password added: because of changed security in Aras 12, you now need to add a password when you create an MDV Export. The password must be the password of the identity that the export is created for.

MDV Package found in Documents: Since the option 'My Desktop' no longer exists in Aras 12, then created MDV packages must be found in the TOC-> Documents -> Documents.

Known issues

The following issues are known in Electronic PLM 11.5.1;

Tracker ID	Summary	Remarks
MS-662	When you create an MDV Export, the message regarding 'Processing' is missing
