# Aras Innovator Version Support

Minerva Solution 12.0.1 is supported on Aras Innovator Version 12 Service Pack 6.

It is possible that Minerva Solution 12.0.1 will work without issues on other service packs of Aras Innovator version SP6 but they are not supported in this 12.0.1 release.

All other compatibilities (Browsers, Operating Systems, etc.) are as per Aras Innovator Version 12 Service Pack 6.

All other compatibilities (Browsers, Operating Systems, etc.) are as per Aras Innovator Version 12 Service Pack 6.

# Minerva Solution 12.0.1

## New Features

The following are new features in Minerva Solution 12.0.1

### Translation

It is possible to create language packs for the Minerva Solution. With a language pack, the different labels within the solution can be changed/translated.

## Fixed Issues

The following issues have been fixed in this version:

<b>Issue no.</b>	<b>Description</b>
MS-1173	The product version wasn't displayed correctly. The version can be found in "TOC" – "Administration" – "Minerva" – "Products".
MS-1172	It was possible to change the start- date on a phase after the phase was started.
MS-1163	Instantiation of parts/documents used the permissions of the deliverable template, which was a problem when the deliverable templated was in a 'released' state.
MS-1145	The "Vote" button in the right-click menu on a risk assessment wasn't working. It has been removed, and the vote must be done by the "Vote" button in the top menu.
MS-1103	When adding additional phases on a gate review, it is now only possible to select feasible phases from the project.
MS-1080	It was possible to close a phase with not closed deliverables.
MS-1079	The problem with the copy of a Tag Book Template is solved. Deliverables placed in the tag book based on the original were also displayed in the copy.
MS-1078	DHF category disappeared on deliverables if one deliverable with that category was changed.
MS-1077	DHF/DMR category duplicated when copy/paste of a deliverable line.
MS-1075	Problems with several actions on one deliverable line are solved.
MS-1036	It is no longer possible to start closing actions on a deliverable, that isn't instantiated.

## Known Issues

The following issue is known in this version:

Issue no.	Description
MS-911	The error message "The grid is too small" can appear, when you open the "Risk" tab on a part. Workaround: press the "Refresh" icon.
