 - New Features 3
 - Fixed issues: 3

Aras Innovator Version Support

Minerva Products 11.6.2 is supported on Aras Innovator Version 12 Service Pack 9.

It is possible that Minerva Products 11.6.2 will work without issues on other service packs of Aras Innovator than version 12 SP9 but they are not supported in this 11.6.2 release.

All other compatibilities (Browsers, Operating Systems, etc.) are as per Aras Innovator Version 12 Service Pack 9.

Minerva Data Viewer 11.6.2 for Aras 12 SP9

New Features

This release focus on getting the features from our existing Minerva Data Viewer 11.6.1 to work on Aras 12 SP6.

Password removed: Because of changed security in Aras 12 SP2, it was necessary in version 11.6. to add a password when you created an MDV Export. This is no longer needed, and the password option is removed again.

MDV Package found in Documents: Since the option 'My Desktop' no longer exists in Aras 12, then created MDV packages must be found in the TOC-> Documents -> Documents.

Fixed issues:

The following issues have been fixed in Minerva Data Viewer 11.6.2.

Issue no.	Description
MS-1255	Couldn't create MDV Export on Aras 12 SP9
