# Aras Innovator Version Support

Minerva Solution 12.0.3 is supported on Aras Innovator Version 12 Service Pack 9.

It is possible that Minerva Solution 12.0.3 will work without issues on other service packs of Aras Innovator version SP9 but they are not supported in this 12.0.3 release.

All other compatibilities (Browsers, Operating Systems, etc.) are as per Aras Innovator Version 12 Service Pack 9.

All other compatibilities (Browsers, Operating Systems, etc.) are as per Aras Innovator Version 12 Service Pack 9.

# Minerva Solution 12.0.3

## New & Improved Features

The following are new features in Minerva Solution 12.0.3

### Project Administration feature

A new feature for users with 'MDS\_Admin' identity.

#### *Update/Replace Tag Books and Tag Book templates*

On Project Templates, it is possible to update and replace Tag Book Templates, which are added to the Project Template. After updating/replacing Tag Book Templates, new projects created based on the Project Templates will be created with the 'new' Tag Book Templates. Already created projects, will not be affected.

Update existing projects with a new different Tag Book or a newer version of a used Tag Book, can be done using the Project Administration feature on Projects. *It is not possible to update/replace Tag Books on projects that contain closed deliverable lines.*

#### *Update Time Of Day*

If the parameter for what time of day a deliverable line (which closing rule isn't 'By Gate Review') is excepted to be closed, for not to be 'Off Track', is changed, it doesn't automatically affect existing deliverable lines in Project Templates and Projects. Projects and Project Templates can be updated with the new 'Time Of day' parameter with the Project Administration feature.

### Import/Export of language pack

Language packs (for Minerva Solution labels) created with the translation module can be imported and exported as AML and CSV files. It is only possible to export language packs that match the language used in your browser.

## Fixed Issues

The following issues have been fixed in this version:

<b>Issue no.</b>	<b>Description</b>
MS-1451	Improvement of the performance of the Deliverables Matrix
MS-1473	Improvement of the performance of the Gate Review Change Orders
MS-1407	From template' now refers to the correct 'deliverable template' version

MS-1444	MDS_User identity can no longer create a Design Review change order
MS-1408	The 'Effective Date' is not copied to the deliverable line from the deliverable template
MS-1391	On projects, on certain conditions, an 'End date required' error message could appear for phases, even though the end date was added
MS-1449	Prevent selection of deliverables marked as 'template' in active phases
MS-1413	Sort Phases in projects by Start Date order
MS-1412	It was not possible to copy a deliverable in a Project Template if one or more Tag Book Categories were missing
MS-1296	Wrong colour on icons for child phases displayed in the DHF/DMR/TF view

## Known Issues

The following issue is known in this version:

Issue no.	Description
MS-1485	Cannot replace tags in closed deliverable lines. It is not possible to use the Project Administration feature to update projects with closed deliverable lines.
MS-911	The error message "The grid is too small" could appear, when you opened the "Risk" tab on a part. Workaround: Press the 'Refresh' icon
MS-1493	The MDS_user identity no longer have permissions to edit existing Tag Book collections
MS-1296	Child phases are displayed with the 'Parent phase' icon in the DHF/DMR/TF view on projects
MS-1464	The Risk Assessment stays in the 'In work' state after canceling a risk change order
MS-1361	Problem with deliverables with instantiation mode 'Instantiate By Phase' if it was added to a pending phase after the project was started
MS-1406	Project Administration feature: Change the text on some of the tool tips
MS-1383	Project administration feature: Small changes in names on some of the buttons
