Aras Innovator Version Support

Minerva Solution 12.0.4 is supported on Aras Innovator Version 12 Service Pack 9.

It is possible that Minerva Solution 12.0.4 will work without issues on other service packs of Aras Innovator version SP9 but they are not supported in this 12.0.4 release.

All other compatibilities (Browsers, Operating Systems, etc.) are as per Aras Innovator Version 12 Service Pack 9.

All other compatibilities (Browsers, Operating Systems, etc.) are as per Aras Innovator Version 12 Service Pack 9.

Minerva Solution 12.0.4

New & Improved Features

The following are new features in Minerva Solution 12.0.4

MDS_Reader identity

A new MDS_Reader identity has been added. Users which are members of the MDS_Reader identity can view created Projects and Tag Book Collections, but are not able to work in them/ edit them.

Fixed Issues

The following issues have been fixed in this version:

Issue no.	Description
MS-1497	Final Gate Review Approval is not possible- missing permissions
MS-1498	Created Part/Document items had a copy of themselves displayed in the 'From Template' property.

Known Issues

The following issue is known in this version:

Issue no.	Description
MS-1485	Cannot replace tags in closed deliverable lines. It is not possible to use the Project Administration feature to update projects with closed deliverable lines.
MS-911	The error message "The grid is too small" could appear, when you opened the "Risk" tab on a part. Workaround: Press the 'Refresh' icon
MS-1493	The MDS_user identity no longer have permissions to edit existing Tag Book collections
MS-1296	Child phases are displayed with the 'Parent phase' icon in the DHF/DMR/TF view on projects
MS-1464	The Risk Assessment stays in the 'In work' state after 3ancelling a risk change order

MS-1361	Problem with deliverables with instantiation mode 'Instantiate By Phase' if it was added to a pending phase after the project was started
MS-1406	Project Administration feature: Change the text on some of the tool tips
MS-1383	Project administration feature: Small changes in names on some of the buttons
MS-1489	MDS-Reader identity can instantiate deliverables
MS-1531	Health Status is not correct on a project after a design Review Change Order
MS-1532	A warning is missing if I try to vote a Gate Review/Design Review change order or an action to the next level with a wrong identity (it is correctly not possible to perform the vote with a wrong identity)
MS-1534	Reactivated deliverable line is in state 'Pending' if reactivated in an active phase
